

13th December, 2011

Dear Sirs/Madams,

HARISON TOSHIBA LIGHTING Corp.
Toshiharu Sakurai
President

2nd Damage Report for HARISON TOSHIBA LIGHTING Corp. Operations
following Floodwaters in Thailand

The following is a summary overview of damage reported at the group company, Toshiba Lighting Components (Thailand) Ltd. in Bangkadi Industrial Park, Pathumthani, Thailand (herein after called TLCT) as of Tuesday, 13th December, 2011.

1. Overview of damage

TLCT has completed a drainage treatment and began cleaning buildings and equipments, as well as restoration work.

2. Operation from Now on

TLCT is scheduled to begin production in February, partly by using a second-floor space and equipments safe from flood damage. We are expecting to complete recovery in March, except for the production line damaged by flooding. We aim to resume TLCT production as soon as possible, and continue the recovery work.
